Please be advised that I am very upset about the information I have heard about satellite radio being under attack!!! I pay for this service for a reason....uninterrupted stations and news information at the push of a button, which are not available on the local channels. I do switch over to listen to our AM stations for some programming if that would satisfy the FCC let them be aware of that as well. I truly urge the FCC to reject the NAB's petition 04-160!!!!!!!Thank you for your time.
